SU-PER[®] Wind

Great Tasting Way to Open Up the Airway!

Used as an aid in opening up breathing passages in performance horses. Also used for minor congestion, coughs, and throat irritation.

For many years, our **SU-PER[®] Wind** has been the top choice at racetracks around the country for “opening up” breathing passages in race horses, and allowing the horse to breathe easier during the race.

The combination of Honey, Apple Cider Vinegar, Menthol and Eucalyptus helps reduce swelling and inflammation in the respiratory tract, and opens everything up to allow for less restrictive air flow.

SU-PER[®] Wind is a must for many racehorses. But it is also a great tool for minor coughs, swollen nasal passages, and issues like dust allergies that can cause airway restriction. It is all-natural, contains no medications, and is safe for horses of all ages.

Both the pint and the quart bottles comes with a syringe for easy administration.

Even in the winter months, **SU-PER[®] Wind** is a great addition to your tack room, especially if you are still riding in colder weather.

A little **SU-PER[®] Wind** opens it all up,
and allows your horse to breathe easy in any condition.
