

# VITAFERM® CONCEPT•AID® PROTEIN TUB

SIZES AVAILABLE

Product #20035  
200 lb. tub

A combination of Concept•Aid® breeding mineral and 20% natural protein in a cooked tub for beef cattle. Specifically designed for reproductive success when fed 60 days pre-calving through 60 days post-breeding. Especially beneficial in A.I. and E.T. breeding programs. Includes natural protein for when forage quality is low.

## AMA FERM® ADVANTAGE

Amaferm® is a natural prebiotic designed to maximize the nutritional value of feed. It is research-proven to increase the energy available to the animal resulting in more milk production as well as to the ability to initiate and maintain pregnancy and fertility.

### FEEDING DIRECTIONS

Feed to beef cattle using the following guidelines:

1. Consumption should be approximately 1 lb. per head, per day.
2. Provide one 200 lb. Protein Tub for every 20-30 head.
3. Provide plenty of good quality forage at all times.
4. Free-choice salt should be provided.
5. Provide a fresh, clean water supply at all times.
6. Consumption can vary with weather and feed conditions.
7. If over-consumed, move block farther from water or loafing area.

The above feeding directions are guidelines. Use good management practices adapted to varying conditions.
