

## *SU-PER<sup>®</sup> Uva Ursi*

*Supports Proper and Active Kidney Function!*

**Maintains normal function of the urinary tract.**

*SU-PER<sup>®</sup> Uva Ursi* is a feed supplement used to provide support for a healthy urinary tract.

Long before antibiotics were available, Uva Ursi was used by numerous cultures to treat urinary tract infections.

In addition to fighting infection of all sorts, Uva Ursi has historically been used to balance urinary pH, and cleanse the kidneys. Uva Ursi contains tannins that help provide a natural astringent effect, and has been shown to help flush the bladder of pathogens via its diuretic properties. It also contains allantoin, a chemical also found in aloe, which provides a soothing effect for irritated tissues.

Since *SU-PER<sup>®</sup> Uva Ursi* has a diuretic effect, it is recommended to offer plenty of fresh water when supplementing this product. It is also recommended to limit use to 10 consecutive days, which is plenty of time for Uva Ursi to provide proper urinary tract balance.
