Insoluble Impurities, Max.....	0.5%
Vitamin E, Min.....	200 IU/lb.
Moisture, Max.....	0.5%

## Ingredients

Rice bran oil

**Please Note:** This product information sheet is meant to serve as a general overview and is not intended to replace the product label. Always refer directly to the product label for the most up-to-date nutrient content and feeding directions.

## Directions for Use

McCauley's All-Natural Rice Bran Oil should be top-dressed or mixed with feed. As a rule of best feeding practices, McCauley's All-Natural Rice Bran Oil should be introduced gradually. The feeding guidelines included below are for an average-size riding horse (1,200 lbs. of body weight). The actual amount should be adjusted according to the body weight of the horse.

For skin and coat condition: Feed 2–4 oz. per day.

For weight gain: Feed 4–8 oz. per day. (As with any oil, feeding too much may result in loose stools.)

To ensure freshness, we recommend that McCauley's All-Natural Rice Bran Oil be consumed within 60 days after opening.

SHAKE WELL BEFORE USING. Some of the natural components included in McCauley's All-Natural Rice Bran Oil, such as lecithins and gamma-oryzanol, have a tendency to settle. Shaking will easily remix all of these components.

## Cautions and Warnings

Shake well before using (see explanation above).

## Our Story

When McCauley Bros. Feed & Seed, Inc. was initially established in 1938, FDR was president, the ballpoint pen had just been invented, and a gallon of gas cost a whopping 20 cents.

Some 20 years later, with a passion for Thoroughbred horses and a heartfelt desire to take the guesswork out of equine nutrition, Graham McCauley began converting his family's traditional farm store into an equine-focused feed business that was, in many ways, the first of its kind.

Although many years have passed, our focus on feeding horses with wholesome, highly effective ingredients remains the same. We have had the pleasure of feeding countless horses — from Olympians to Triple Crown winners and many beloved companions in between — all while maintaining the highest standards of feed quality and safety.
