## Two dewormers are better than one.2

If you've only been using ivermectin (or any other kind of -ectin), it's time to add a dewormer from a different class to your protocol. Because you're leaving resistant parasites in your cattle - and potential profit on the table.

SAFEGUARDWORKS.COM

## **ELEGTRIG FENGING SUPPLIES**

## **ELECTRIC ENERGIZERS**

## **MAXI-POWER MARK 8**

(30 Miles) 110 Volt Features Parmak's exclusive built-in performance meter that tells you the exact condition of the fence. Full one (1) year warranty. 30 miles......**\$165.00** 

### **MAXI-POWER SUPER ENERGIZER 5**

(50 Miles) 110 Volt Equipped with a built-in Digital performance meter which tells you the exact condition of the fence. Over 8,000 volts of holding power with 500 OHM load. Fuse protection with built-in lightning arrester. Full one (1) year warranty SPDPASE3 50 miles.....**\$185.00** 

RANGE MASTER ENERGIZER (100 Miles) 110-120 volt - AC Operated Digital performance meter shows voltage on fence, accurate within 100 volts. Ultra-High visible,

multi-colored LED lights show condition on fence. Audible and visible SHUT DOWN ALARM sounds when fence charger is not functioning properly. Low impedance, over 12.5 joules of shock output power to control livestock or predators. For indoor installation. Full two (2) year warranty includes damage caused by lightning. SPDRM 100 miles......**\$255.00** 

PATRIOT FENCE ENERGIZERS

Low impedance technology for effective, reliable results. LED indicator lets you see at-a-glance that the energizer is on and working. Simple operation, low maintenance and powerful performance.

DC-POWERED:
SPDPE5B, 5 miles/20 acres......\$71.00
SPDPE10B PE10B, 10 miles/40 acres.....\$94.00
SPDPBX50 PBX50, 15 miles/60 acres.....\$114.00

SPDPBX120 PBX120, 30 miles/75 acres..\$138.00

## ENERGIZERS COMPLETE W/BATTERY & SOLAR PANEL

## **SOLAR PAK 6 (25 Miles)**

6 Volt - Solar/Battery Operated America's first solar powered electric fencer is America's first solar powered electric fencer is now low impedance and features exclusive built-in performance meter. Shocks thru wet weeds and brush. Features state-of-the-art solar panel with over 42% more battery charging power. Will charge battery even on cloudy days with maximum power in direct sunlight. Will operate for 21 days in total darkness. Complete with energizer, 6 volt battery and solar panel. Charges up to 25 miles of fence and has full two (2) year warranty. Battery is warranted for one (1) year.

**SPÓPADFSP** 25 miles.....**\$199.00** 

**6 VOLT GEL CELL BATTERY** 

6 volt gel cell battery for the Solar Pak 6 Energizer. 6 volt.....**\$39.00** SPDBAT6

## SOLAR PAK 12 (30 Miles)

12 volt - Solar/Battery Operated Features Parmak's exclusive built-in performance meter. Tells you the exact condition of your fence. The totally new and improved solar panel uses free energy from the sun to provide maximum shock... longer life. No operating costs! Charges over 30 miles of fence. Shocks thru wet weeds and brush. Full two (2) year warranty. Battery is warranted for one (1) year **SPDPAMAGS** 30 miles......**\$305.00** 

## **S1000 SOLAR ENERGIZER**

(6 Miles-140 acres) Solar-powered, 12V, 7AH SLA battery and fence leads. Typical output voltage is 9,600V on open circuits, 7,100 V on a standard load and 5,600V on heavy loads

SPD1000SE 6 miles 3 yr warranty......**\$456.00** 

SPDSG80.....

**SOLARGUARD 155 (Patriot)** Solar-powered, 12V gel cell battery. Low impedance technology for effective, reliable results. Handy T-Post mounting feature. Built-in battery saving technology. 21 days operation without

10miles/40acres......**\$170.00** 12V Replacement Battery..**\$46.00** SPDSG155 SPD01020

## **4V GEL CELL BATTERY**

SOLAR-POWERED ENERGIZER (Patriot) Lowimpedance technology for effective, reliable results. Ideal for keeping out small, nuisance animals or safely containing small animals

## **BATTERY ENERGIZERS**

MAGNUM 12 U.O. (30 Miles)
12 Volt - Battery Operated
Has exclusive built-in performance meter. Tells you the exact condition of your fence. Shocks thru wet weeds and brush. Weatherproof. Full one (1) year warranto. **SPDPAMAG** 30 miles.....**\$99.00** 

### **DUAL PURPOSE ENERGIZERS**

DUAL-PURPOSE ENERGIZERS (Patriot) All-in-One unit can be powdered 3 ways: ELEC-TRICITY, BATTERY, or SOLAR. LED indicator

## **UNIGIZERS**

**UNIGIZERS (Speedrite)**Suitable for 110 volt, 12 volt battery or solar installations. Indicator lights show output voltage and battery condition for quick identification of any problems. Adjustable pulse speed for improved battery conservation. Day/Night sensor allows you to set fast or slow night functions for flexible stock control and energy saving. Battery lead set and power adapter included. Weatherproof case.

## ELECTRIC FENGING SUPPLIES

### **WIRE**

### **POLIWIRE**

White Poliwire with 6 strands of stainless steel wire. Suitable for strip grazing. SPDSP013 660 ft. white.....\$21.50

White Poliwire with 9 strands

of stainless steel wire. Superior conductivity compared to poliwire. Ideal for strip grazing and semi-permanent fencing.

**SPDSP211** 1320 ft. white......\$68.50

Great for quick, temporary fences or rotational grazing applications. Works well with Patriot Sentinel posts. Made of long life, UV stabilized yarn. White color for greater visibility. 6 stainless steel conductors, tightly woven for superior strength. 1 year warranty. SPD821449

SPD822757 I/2" POLITAPE

(Speedrite)
White 1/2" politape with 6 strands of stainless steel wire. Suitable for strip grazing. (Tru-Test)

\$40.00 **SPDSP016** 660 ft. white......**\$40.00** 

660 ft. roll......**\$23.00** 

1,320 ft. roll.....**\$36.00** 

Great for quick, temporary fences or rotational grazing applications. Works well with Patriot Sentinel posts. Made of long life, UV stabilized yarn. White color for greater visibility. 6 stainless steel conductors, tightly woven for superior strength. SPD821451 660 ft. roll......\$36.50

ULTRAWIRE

## **EXTREME WIRE**

Great for quick, temporary fences or rotational grazing applications. 105 times more conductive than standard poliwire. Made of long life, UV stabilized yarn. White/red weave for greater visibility.

**EXTREME BRAID** 

Ideal choice for semi-permanent or temporary equine fences. Made of long life, UV stabilized yarn. White/red weave for greater visibility. 8 total strands (4 tinned copper, 4 stainless steel). 660 ft.....**\$120.00** SPDUB660

**POLIROPE** (Patriot)

Ideal choice for semi-permanent or temporary equine fences. Made of long life, UV stabilized yarn. White color for greater visibility. 6 stainless steel conductors, tightly woven for superior strength. 1/4" / 6mm diameter.

SPD821450 660 ft. roll.....**\$120.00** 

1/2" EXTREME TAPE

Great for quick, temporary fences or rotational grazing applications. 106 times more conductive than standard politape. Made of long life, UV stabilized yarn. White/red weave for greater visibility. 6 tinned opper conductors

SPDSP050 660 ft. roll......**\$66.50** 

## **HIGH TENSILE WIRE**

12 1/2 gauge, class III, galvanized, Hi-tensile, smooth, electric fence wire is layer-wrapped to provide tangle-free unspooling. Features a guaranteed class III heavy galvanized zinc coating which exceeds .8 ounces of zinc per square foot for maximum corrosion resistance. 170,000 PSI max. tensile strength. 1308 lbs. max. breaking load.

**BEKHTW** 

4000' roll.....

call for prices

## **FENCING KITS**

**EQUINE CORRAL KIT**"Fence in a bag" has a basic assortment of items to construct simple temporary electric fence. Includes: Speedrite AN20 energizer, posts, gate handle, reel, politape, carrying bag, T-handle ground rod and instructions. Great for rodeos, horse shows or trail rides. Works with most types of animals.

SPDECK ....

PET & GARDEN KIT (Patriot)

All you need to build a quick, basic and effective electric fence. Ideal for keeping pets in the yard and nuisance animals out of the garden. Includes atriot PE2 energizer, 10 green trĕad-in syle posts, 100 ft. green poliwire, easy to use fence/ground connectors, 1 warning sign, simple instruc

**POULTRY & SHEEP NETTING** 

Green. Fast and easy set up/teardown. Includes warning sign, corner stakes, basic repair kit and installation instructions.

**POULTRY NETTING:** Great for organic chicken operations. Double spike posts. **SPD821955** 165'x43".....**\$270.00** 

**SHEEP NETTING:** Great for sheep or goats. Single spike posts. SPD821953

165'x35".....**\$207.00** 

## T POST INSULATORS

### WHITE T-POST TOPPERS

Fits over T-posts. Prevents cuts from sharp edges on top of T-posts. Works with all types of poli-wire, tape, rope, plus 1 1/2" and 2" wide tape. Clips keep wire and tape from falling out. UV stabilized for long life. 10 year warranty.

WRAP-AROUND T-POST PINLOCK Pinlock design allows easy removal of wires. Fence wire: Poliwire, polirope, steel/aluminum wire. Special wrap design secures insulator to post.

### 25/bag.....**\$9.50** SPD820017

WRAP AROUND T-POST CLAW Fence wire: Poliwire, polirope, steel/aluminum wire. Special wrap design secures insulator to post. SPD820015 25/bag.....**\$6.25** 

## WRAP AROUND BACKSIDE T-POST EXTENDERS

Protects existing fence by extending electric fence wire off the back side of the T-post. Fence wire: Poliwire, polirope, steel/aluminum wire. Special

wrap design secures insulator to post. **SPD820028** 2"(5cm), 25/bag.......**\$7.25 SPD820035** 5"(13cm), 25/bag.......**\$12.00** 

## PATRIOT WRAP AROUND

**T-POST EXTENDER**Extends fence wire 5" off the T-Post to protect existing fence. Holds most wire sizes including poliwire, 1/2" tape & rope.

SPD820021 25/bag.....**\$11.00** 

## T-POST PINLOCK INSULATOR (Wrap Around)

Designed to wrap around steel post. One clip on insulator snaps to front of post, the other clip curls around and snaps to back of post. Retaining pin holds wire in place. Fits 1.25 and 1.33 steel posts. uitable for high tensile wire.
PD310 25/bag.....\$9.00

T-POST GATE ANCHOR INSULATOR conomical option for building a gate between T-posts. SPD814210 2/bag......**\$4.75** 

## ELEGTRIG FENGING SUPPLIES

INVERSE T-POST INSU	LATOR	
---------------------	-------	--

Easily mounts to the front or back side of a standard size T-Post. Holds any type of wire and **made in USA**. 32 insulators per bag. Available in blue or black, 3" or 6" extended.

## SCREW ON T-POST INSULATOR

Works great on all t-posts with poliwire, polirope, politape, steel/aluminum wires.

## **WOOD INSULATORS**

3" or 6" EXTENDED WOOD POST INSULATOR Designed to mount to round wood posts or plank boards. Curved base allows for a wider surface mount for added strength. 50 - 1 1/2" non-corrosive wood screws pre-packaged inside packaging. UV protected for weather durability. 25 insulators per bag available in blue or black and 3" or 6" lengths.

SPD3262	3" 25/bag	\$13.50
SPD3264	6" 25/bağ	

## WOOD POST CLAW INSULATORS

Large shield to prevent arcing. Easily attached with nails or staples. Heavy duty claw fittings for maximum strength. Can also be used with metal pipes. Fence wire: Poliwire, polirope/braid, steel/ aluminum wire. 10 year warranty.

SPD814718 White, 25/bag......\$9.00

## WOOD POST PINLOCK INSULATOR

Pinlock design allows easy removal of wires. Can also be used with metal pipe. Fence wire: Poliwire, polirope, steel/aluminum wire. **SPD820033** 25/bag...... 25/bag.....**\$9.00** 

### WOOD POST INSULATOR

WOOD POST SQUARE INSULATOR

Fence wire: Poliwire, thin gauge steel/aluminum. Economical single nail installation.

SPD820032 25/bag......**\$6.00** 

## WOOD POST SLANT NAILS

Protects existing fence by extending electric fence wire, off the wood post. Fence wire: Poliwire, polirons, steel/aluminum wire.

polirope, steel/a	aluminum wire.	
SPD820030	2" (5cm), 25/bag	\$7.50
SPD820026	5"(13cm), 25/bag	\$14.00
	, ,	

## **IUMBO RING INSULATOR**

For use on wood posts. Wire: Polirope/braid, poliwire, high tensile steel/aluminum wire SPD814590 25/bag......\$14.00

RING Fence wire: Poliwire, steel/aluminum wire. Use with Patriot ring insulator tool.

SPD810840 25/bag.....**\$13.00** SPD815042 

## SIDE FIXING STANDOFF

Galvanized spring steel construction, UV stabilized for long life, white color.

SPD807873 6".....**\$3.25** 

## WOOD POST GATE ANCHOR INSULATOR

Economical option for building a gate between SPD814212 2/bag......**\$3.75** 

## **DUAL INSULATORS**

## **DUAL-PURPOSE WOOD/T-POST INSULATOR**

Works with wooden posts and T-posts. Sturdy pin for longer life and reinforced jaws. Pinlock allows for easy

For use with wood posts, metal pipes and T-posts. Fencewire: Poliwire, steel/aluminum wire. Economical solution to create corners in electric fences. SPD814715 10/bag......\$5.75

White Corner Insulator. Molded from glass fiber reinforced UV stabilized plastic for ultra strength and long life. Ideal for tough, high tension appli-cations. Deep grooves to hold wire in place. Long leakage paths to prevent arcing. 10 year warranty. 5/bag.....**\$10.50** SPD3141

## WRAP AROUND INSULATOR

Economical solution to create corners in electric fences. For use with wood posts, metal pipes and T-posts. Fence wire: steel/aluminum wire.

## **END STRAIN INSULATOR**

For use with wood posts, metal pipes and T-posts. Fence wire: steel/aluminum wire. Effective end strain for termination of electric fence wire. SPD809981 10/bag.....**\$9.50** 

### PORCELAIN DONUT INSULATOR

For use with wood posts, metal pipes and T-posts. Fence wire: steel/aluminum wire. Creates corners and termination in electric fences. Use on fence ends, curves and corners. Fire resistant. 10/box.....**\$7.00** 

## **BULLNOSE PORCELAIN INSULATOR**

For use with wood posts, metal pipes and T-posts. Fence wire: steel/aluminum wire. Effective end strain for termination of electric fences. Fire resistant

SPD814206 10/box.....**\$16.00** 

## **HEAVY DUTY U PORCELAIN INSULATOR**

For use with wood posts, metal pipes and T-posts. Fence wire: steel/aluminum wire. Effective end strain for termination of electric fence wires. Fire SPD814211

10/box.....**\$11.00** 

## ROD INSULATORS

## PATRIOT PORCELAIN SCREW-IN

Recommended for wood posts, T-posts, metal pipe, and rod posts. Use with poliwire, politape (1/2"), politape (1/2") polirope, steel/aluminum wire.

SPD814208 small......\$2.00

small.....\$2.00 SPD814207 large.....**\$3.00** 

## **ROD POST INSULATOR**

Adjustable to fit rod posts 1/4"-5/8". UV stabilized for long life. Heavy duty screw nut with non-slip grips. Strong claw with reinforcing rib. Innovative back end slot with anti-slip-out hooks for up to 1/2" politape. 10 ear warranty. SPD316 25/bag......**\$8.00** 

## PINLOCK WIRE OFFSET

Recommended for wood post,T-post, metal pipe, rod post. For use with poliwire, politape (1/2"), politape (1/2") polirope, steel/aluminum wire. (Bundle of 5) SPDSI060SP......\$19.50

**SCREW ON ROD POST INSULATOR**Fence wire: Poliwire, politape (1/2") polirope, steel/ aluminum wire. Fits posts 1/4" (6mm) to 9/16" 14mm) in diameter SPD820019 25/bag.....**\$8.00** 

## **ELECTRIC FENGING SUPPLIES**

## **POSTS & CLIPS**

### **FIBERGLASS POSTS**

These posts won't rust, rot, or short out and are difficult to break. Drives easily with a standard post driver.

13/16"x60" w/3 pre-drilled holes, **HGAMRBP60** 

fence height 42".....\$8.50 13/16"x66" w/5 pre-drilled holes, **HGAMRBP66** 

fence height 48"......**\$9.25**

G704 clips for use with above posts (100/bag).\$20.00 3/8"x48" orange fiber glass posts......\$3.25 **HGAM3848 HGAM3860 HGAM3825 SPD513** 5'x11/16" w/21 pre-drilled holes......**\$7.50** 

## STEP-IN FIBERGLASS POST w/ SMART CLIP

Accepts all fencing materials with ease, bigger stronger clip design. Molded top doubles as drive clip 10 year warranty. 10% discount on 100 or more

**SPDSIP** 3/8" X 4'.....**\$3.50** 

### PIG TAIL TREAD-IN POST

Recommended for portable temporary fences. Use with Poliwire, Polirope and Politape. 41" height, 34" above ground. Steel frame with steel step plate. Insulated top. ŠPDPT134.....\$4.50

## **PIG TAIL CLIPS**

Made from high strength spring steel wire. High tension squeeze clip can be hand fitted. Fence wire can freely run through the clip legs. Available in 1/2" and 3/8".

SPD5522 1/2", 20/bag......**\$13.75** 

## **STEP-IN POLY POST**

Large step for easy insertion. Nine insulators conveniently spaced for various applications. Insulators wide enough to handle any wire or tape up to 1 1/2" (40mm) wide. Strong, sharp 10" metal spike. Weather resistant and non-conductive. Structurally reinforced. 8% Discount on 50 or more

**SPDSTEP** 48" black, ea......\$3.50

## SENTINEL PLASTIC TREAD-IN POST

Recommended for temporary fences. For use with poliwire, politape (1/2"), politape (1 1/2"), polirope and steel/aluminum wire. (Not for use with high tensile wire). 1 year warranty. 8% Discount on 50 or more.

SPD820014 49"(black)......\$4.00

## **GATES, HANDLES & LATCHES**

**HD GATE BREAK HANDLE** 

red......**\$6.25 SPD432** 

**BLACK PLASTIC GATE HANDLE** 

SPD817217.....\$2.75

**COMPRESSION GATE BREAK** 

Heavy duty spring compression under load. Nonslip insulated grip. High density UV stabilized polyethylene.

SPĎCGHB blue......**\$7.00** 

**ZAMMR HANDLE** 

Use as a live hook or for a gate break SPD824115 black.....\$4.00

NO KICK HANDLE

Self insulating. Made from durable plastic. SPDSA013.....\$2.00

RUBBER HANDLE
This rubber gate handle is fully insulated and features a non-slip grip. It is used to electrify gateways on permanent or temporary fencing. Can be used with steel wire, aluminum wire, and most poly-products. Made of durable, UV-stabilized rubber. Yellow.

SPD828230.....\$3.00

**GATE HOOK PLATE + INSULATOR** 

For use with gates. Three position slots for flexibility.

SPD4338 2/pk.....**\$14.25** 

**STEEL GATE LATCH**16' SPRING GATE, COMPLETE
Includes gate handle, anchor, activator & 16' spring.

SPD809983.....\$20.00

**26' SPRING GATE** 

Electrifies gateways up to 26' (8m) wide. Includes HD insulated handle, wood post pinlock, insulator, gate activator & galvanized spring.

SPDSA0448M......\$34.00

**BUNGY GATE** 

Electrifies gateways from 11' (3.5m) to 23' (7m) wide. Includes insulated handle, wood post, pinlock insulator, gate activator, high visibility flag & bungy cord. SPD813719......\$36.50

WIRE GATE CLOSER

Made of high quality steel, this latch offers an easy way to open and close barbed wire and any other type of gates without strain, stress or torn clothing. year warranty.

SPDCLOSE......\$20.00

**QUICK-LATCH** 

Fastest, easiest chain latch. Just push and twist. Hog, cattle and horse proof.

SPDQLGL.....\$12.50

ADJUSTABLE CHAIN WIRE GATE LATCH

Fully adjustable, will work with various gate tensions. SPDGL.....\$20.00

## **ELECTRIC FENGING SUPPLIES**

## DRIVE-THRU ELECTRIC GATE

Adjustable 13' - 19'. No more opening and closing gates. Flexible fiberglass polyethylene arms support electrical streams (30" in length and 6" apart) and bend in any direction. Won't harm the finish of any vehicle as the metal never touches it. Gate swings closed automatically.

SPD436......\$175.00

## **FENCE TESTERS**

**5 LIGHT FENCE TESTER (Patriot)**Measures and displays approximate fence voltage. Bright voltage lights, easy to read voltage indicator. SPD814217.....\$20.00

**DIGITAL FAULT FINDER** 

Check fence voltages and find faults fast. This directional fault finder/current meter follows current flow both visually and audibly. Has low battery indicator and replaceable 9 volt battery. Can be used on all electric wire fences.

SPD2029

Digital fault finder.....\$135.00

**FENCE ALERT** 

Lets you know from a distance when a fence is not performing. Starts flashing when voltage becomes insufficient to hold stock. Highly visible flashing light up to 1 mile. Clips onto wire, tape, braid, or netting. Replaceable internal battery (lasts up to 5 years on standby or 2 weeks flashing). SPD301 Fence Alert.....\$30.00

## **JUMPER LEADS**

## **JUMPER LEADS**

Needed to ensure quality connections in temporary fencing.

SPDJLS.....\$11.00

FENCE LEAD SET

Use to connect energizer to fence wire and ground system

SPD821229.....\$23.00

## **CUT OUT SWITCHES**

Features stainless steel fittings for positive non-corrosive contact and easily identifiable on/off positions. SPD414.....\$14.50

Can be used with wood posts and metal pipes. Use to isolate sections of fence. Stainless steel fittings for

positive non-corrosive contact.
SPD817216.....\$7.50

## **UNDERGROUND CABLES**

12.5 GAUGE UNDERGROUND CABLE Recommended for connection to fence wires, ground rods and underneath gates. For use with all energizers, ground rods, and steel fence wire. Double-insulated galvanized wire.

SPD806045

SPD3512

**EXTREME UNDERGROUND CABLE** 

Ideal for large properties with high powered energizers, especially all Speedrite energizers with 12 joules of output or greater. Aluminum coated steel for extreme conductivity. UV stabilized for long life SPD806052 330 ft.....**\$187.00** 

**MISCELLANEOUS** 

LIGHTNING ARRESTOR

Helps to protect fence energizer in the event of lightning strike to the fence line. Strong porcelain frame with steel connection points. SPD814630.....\$16.50

LIGHTNING DIVERTER

Redirects lightning to ground minimizing energizer and fence damage. SPD822024.....\$33.50

**INSULTUBE** 

An economical insulator that's fastened with staples.4 mm x 12 m coil.

SPD807936 39 ft.....**\$16.25** 

WARNING SIGN

Warning sign to alert persons to electric fence. Clips onto electric fence wire to create clear warning for safety. Installs on most electric fence wires. SPD809700.....\$2.00

### 6' GROUND ROD WITH CLAMP

6' x 1/2" galvanized steel prevents electrolysis corrosion and loss of conductivity. Heavy duty clamp. Inadequate grounding is the most common cause of poor electric fence performance.

SPDGR6	ground rod w/ clamp	\$17.00
<b>SPDGRC</b>	ground rod clamp only	\$4.50

## T-HANDLE GROUND ROD

Ideal for energizers and temporary fences that will be moved frequently. 30" long galvanized steel with 6" handle and tapered end.

**ECONO REEL** 

Keeps poliwire/tape organized. For use with poliwire & politape. Holds 1,650 ft. of poliwire or 660 ft. of 1/2" politape. Frame insulated from spool, galvanized steel frame, rugged locking system, UV stable for long life. Jumbo holds 3,280 ft poliwire or 1,312 ft politape.

Jui 1100 110103 3,2	.oo it polivilie oi	1,512 it politape.

**GEARED REEL** 

Keeps poliwire/tape organized. For use with poliwire & politape. Holds 1,650 ft of poliwire or 660 ft of 1/2" politape. 3:1 gear ratio for easier use, galvanized steel frame, rugged locking system, UV stable for long life. Mega holds 3 280 ft poliwire or 1 312 ft politape.

SPDSR020	o it poliwire of	<b>\$95.00</b>
SPD021	mega	\$119.00

**ENERGIZER TO ROPE/BRAID CONNECTOR** 

Use to connect polirope or braid strands to energizer Suitable for use with polirope or braid.

SPD814709.....\$6.00

TAPE TO TAPE CONNECTOR

Allows the electricity from one politape strand to be transmitted vertically to the politape strand below. Suitable for use with politape up to 1½ in wide. SPD814822.....\$6.25

ROPE TO ROPE CONNECTOR

Allows the electricity from one polirope or braid strand to be transmitted vertically to the polirope or braid strand below Suitable for use with polirope or braid

SPD814822.....\$6.25

## **FENGING SUPPLIES**

**HEAVY DUTY JOINT CLAMP**Recommended for connections to all standard sizes of steel electric fence wire. Galvanized construction for superior rust resistance. Claw design to allow multiple wires.

SPD809984 5/pkg.....**\$7.25** 

## 3 PACK ROPE/BRAID CLAMPS

Ideal for joining polirope or braid together. 1

warranty. SPDRBC 3/pack.....**\$6.00** 

## WIRE LINKS

Quickly splices two lines of fence together. Use ga high tensile wire. Internal spring loaded cla securely hold wire SPD805542 5

5/pkg.....**\$25.00** 

## **SPLICE TOOLS**

## **CRIMP TOOL (Red Brand)**

Allows a wide range of wire or cable to be spliced with one tool. Drop forged blade Includes tool gauge and adjustment tool. 18″longRed with black handles. Stamped head marks slot sizes to easily match crimp sleeve size.

KEY79152.....\$63.00

4-SLOT CRIMP TOOL (Patriot) Secure crimp sleeves to high tensile fence wire. Strong steel frame. Use with Patriot crimp sleeves and wire taps.

SPD814220.....\$72.50

### SPLICE-IT

Offers a quick and simple way to splice any type of wire - barbed, woven, smooth, hi-tensile, etc.

SPDST5 40/box, 12.5-15 ga.....**\$27.50** SPDGB5 50/box, 15.5 ga.....**\$13.00** SPDWW5

50/box, 11-16 ga.....**\$13.00** 

## SPLICE IT TOOL

22" dual purpose tool. Has adjustable case hardened jaws. For use only with Splice It

Wire Splices. Splices wire too rusty to twist. Splices Hi-Tensile, barbed and woven wire. Cuts up to 5/16 grade 5 bolt. Lifetime warranty.

SPDTOOL Tool.......\$60.00

## WIRE STRAINERS

## UNINSULATED SPRING CLIP WIRE STRAINER

Solid steel and aluminum construction. Unique smooth spring clip design is extremely strong and easy to use. Has two winding holes for joining broken wires and slip reduction.

SPD4040.....\$3.50

## IN-LINE WIRE STRAINER (Round)

Able to add to fence without cutting wire. Useful for joining wire. Corrosion resistant. Tightening handle required, sold separately.

SPD4044 Round Wire Strainer......\$ 3.75

## **IN-LINE STRAINER CRANK**

In-line strainers, or wire tighteners, are installed onto fence wire and are used to re-tension the wire when the fence becomes slackCan be used to tighten barbed wire, field fence, high-tensile wire and brace wires. Requires Strainer Crank Handle for tighteningHeavy duty aluminum alloy cog/spool. Steel frame/strap with heavy galvanized zinc coating. Zinc alloy flapper/catch. Stainless steel compression spring. Square

drive; easy tightening **KEY79150** ........ .....\$ 4.00 crank handle.....\$ 5.00 **KEY79155** 

## 1/2" RATCHET STRAINER FENCING TOOL

Heavy galvanized steel ribbed frame/strap. Aluminum alloy cog/spool for ease of wire alignment. Protrusion design on cog allows attachment to a pre-strained wire, instead of threading the end of the wire through the cog. Can be operated with wrench or Strainer Crank Handle. Heavily galvanized zinc coating steel wire clip

Ideal for all styles of fencing **KEY79151** .....\$ 4.00

**BULL NOSE WIRE STRAINER** 

Tough durable design for superior wire tensioning and alignment. Sturdy galvanized steel frame with cast aluminum spool. Specially designed heavy duty insulator. Ideal for all styles of fencing including high tensile applications.

SPD4042.....\$7.25

## SPRING CLIP STRAINER

Use with high tensile wire in permanent fences to maintain tension along fence line or on brace wires. Solid steel and aluminum construction with unique smooth spring clip design.

SPD809813 strainer.....**\$3.50** 

## **COMPRESSION SPRING**

Recommended for permanent fences. For use with tension fence wire. 9" spring, high quality galvanized Use with white end strain insulator.

SPD805543.....\$11.25

### POLIWIRE TENSIONER

For tensioning poli electric fences. Fence wire: Poliwire, politape (½ in) Non conductive and easy to use.

SPD820150 5/pk.....**\$8.50** 

## FENGING SUPPLIES

## **FENCE TOOLS**

BARBWIRE GRIP

Heavy steel construction. Easily grips Barbed wire, smoothwire, and small cable. Attaches to most common stretching devices. Small enough to carry anywhere. 5 inches long, 14 oz. MMMBG.....\$27.00

WIRE GRIP

Safely grips barbed, smooth and small cable wire in place for fence maintenance. Fits into tight areas where a larger ratchet tool would not be accessible. Instructions: Slip wire into collar, attach come-along to ring, and stretch. Length: 5" Weight: 6 lb. KEY79174.....\$27.00

**FENCE PLIER** 

Heavy-duty lockjoint construction with oval faced jaws. Pulls staples, lifts lugs, and splices wires using wire stretcher behind joint. Wire cutter on each side of head cuts double strand barbed wire.

DITFT 10" w/vinyl handle......\$33.00

LEATHER PLIER HOLDER

Fencing pliers holder. Holes for tie down to saddle. RLC529.....\$21.00

FENCE WIRE STRETCHER

Ideal tool for gripping, stretching and tightening any type of wire. **DUTFTOOL** 400 SP Wire Stretcher........\$54.99

FENCE WIRE STRETCHER

Used to mend and stretch barbed wire fences and high tensile wire Easily grip, stretch and tighten wire. Heavy duty steel. Painted black KÉY79153.....\$45.00

FENCE WIRE CUTTER

Economical wire cutter for all fence types, including high tensile. Drop-forged jaws for cutting fence wire. Cuts up to 12.5 gauge wire. Insulated handles for better grip. Spring loaded handles with locking mechanism for ease of use. Overall length 8" Black with red grips. KEY79156.....\$17.00

HIGH TENSILE WIRE CUTTER

Fence wire: Steel/Aluminum wire SPD814237.....\$24.00

**HEAVY DUTY WIRE CUTTER** 

Durable, easy to use wire cutter for all types of fence wire, including high tensileHeavy duty drop-forged jaws easily cuts wire up to 12.5 gauge thick. Spring loaded handles for ease of use. Metal clip latches handles tight when not in use 8" in length KEY79157.....\$35.00

SPIKE SADDLE PLIERS

Lightly chrome plated, heavy steel construction hammer head and wire cutter on both sides. Has a 

MOORE MAKER PLAMMER This tool is a combination hammer and fencing pliers. It is heavily made and will last a long, long time. Heavy steel construction hammer head for driving staples

**BULLNOSE FENCING PLIERS** 

Designed to cut barbed wire and smooth wire with ease. Lightly chrome plated heavy steel construction. Hammer head and wire cutter on both sides. Staple puller in the head. Designed to last a lifetime. Call for availability MMMBNP8

8".....**\$68.00** 

**BRACE PINS** 

Secures horizontal brace post to upright brace posts in corner and brace post assemblies. Galvanized for rust resistance and long life. SPD814218 5" (13cm), 5/box.....**\$4.25** 

10" DIAMOND MULTI-PURPOSE FENCE TOOL

Heavy-duty lock-joint construction with oval faced jaws. Start and pull point on one jaw with corrugated hammer head on the other. Solid drop forged carbon steel blades. Heat treated, milled face design. Non-slip coated green handles.

STEEL T-POST POUNDERS

Larger handles for easier grip offset for easier driving. Powder coated gunmetal grey.

**SPDPOUND** 20#T-PostPounder(S/O)......\$80.00 30#T-PostPounder.....**\$95.00 SPDPOUNDH** 

SUPER DUTY T POST POUNDER

At 30 lbs., this super-duty T-post driver will get the job done quickly and efficiently.

SKIDRIL POST POUNDER

Skidril is the worlds leading innovator in light construction tools. Gas-powered post drivers. SKIDCOV2314 Pipe driver cover for 23/8"-3"......\$65.00 SKIDANV238 Pipe driver anvilfor 23/8"......\$195.00 SKIDG3XD4Pipedrivers5"4cyclehand-held..\$1,525.00

T-POST PULLER

Offers extra leverage for the tough jobs. Chain hook included for assistance pulling wood posts. Rubber grip handle. Powder Coated.

PFTTPOSTP.....\$90.00

SPEED BRACE

Splice It T-Post Connectors. Speed Brace is faster, easier and less expensive than other T-post bracing systems. Build a STRONG, RÉLIABLE fence brace in 5 minutes. One reusable part, no tools required. For permanent or temporary bracing. Use anywhere you can drive a T-Post. Made of heavy gauge Class-3 galvanized steel.

**SPDSBTPC** bag of 4.....**\$21.50** 

H BRACE KIT

Fence Bullet is a no weld adjustable pipe connector.

It joins a post (of selected size) with a 2 3/8 inch outside diameter brace pipe. Fence Bullet was designed for compression fence braces or rail fence. The straight version is best suited for near level rail application such as H brace construction. It has a range of motion of 60 degrees of horizontal and can be used for a page or diagonal brace also zontal and can be used for an angle or diagonal braces also. The one-piece band is normally used on braces or terminal ends of rail fence brace. **SPDBC** 2 3/8".....**\$19.00** 

FENCE CLIP TIE BARS

Tool for attaching fencing to a post with a tie-wire clip. Two in one tool with flathead screwdriver on one end. RMTB4 4"........\$6.00

9-GAUGE CORDLESS FENCING STAPLER

RMTB6 6".....\$7.00

Variable power settings, tool-free depth of drive and jam clearing give the user confidence to get the job done quickly and efficiently.

## WHAT YOU SHOULD KNOW **ABOUT YOUR VACCINES**

Realize that all vaccines have to be shipped at some time. They can be safely shipped to you both in the winter and summer. Vaccines are shipped at the first of the week to prevent them from being in transit over a weekend. In the winter we may at times ship parcel post rather than UPS so they will be protected indoors during shipping. When you receive your order in the summer the ice packs will be melted but will have done their job protecting your biologicals. You should keep your biologicals refrigerated until you use them. Before you order, make sure the shipping methods and quantities of vaccines you choose are correct and afford the level of protection you believe you need. To shorten your "in transit" time, your biologicals can be shipped next day or 2nd day air for an additional charge. If you should have any questions, give us a call.

## **VACCINE COOLER**

## VAXMATE 3 GUN VACCINE COOLER

### CROSS FIVE CATTLE COOLER

Organization system has either 3 or 4 vaccine gun holster tubes on the right lid. The tubes have an enclosed bottom to ensure optimal safety. The "gun" side of the cooler has room for the custom utility tray and ice or heat packs. The holsters promote viability of your vaccine by keeping in cool or warm and out of the sun and elements while not in use. The left side of the cooler has 3 or 4 compartments divided by removable heavy-duty plastic dividers. The compartments are color-coded to match the holsters/tubes. Keeping the vaccine and/or medication in their respective compartments will aid in the elimination of cross-contamination.

**DVTT1050** 500ml.....**\$32.00** 

## **CLEAN AND** STERILIZE YOUR **INSTRUMENTS PROPERLY**

## Cleaning:

Immediately after use, flush the entire system with hot, clean water to remove all residue. Do this by first adjusting dosage setting to the maximum of the instrument, inserting the draw-off into the hot water, then pumping briskly until all residue is removed...about 1 minute. Rinse by briskly pumping clean, hot water through the system. Pump dry and remove tubing. Then pump a few drops of Syringe Lubricant to properly lubricate valves and O Rings. This will improve operation and greatly extend the life of internal parts. Not Recommended: Mineral Oil, Glycerine, or Alchohol.

## Sterilizina:

Boiling the Clean Instrument for twenty minutes is the generally accepted method of sterilizing these instruments.

## **SULFA BOLUSES & INJECTABLES**

## **SUSTAIN III** (Bimeda)

Sustained release bolus that provides a high sulfamethazine blood level for 3 days. Use in beef cattle & non-lactating dairy cattle to treat shipping fever, bacterial scours, footrot, calf diphtheria, acute mastitis & metritis when the causative agent is sensitive to sulfamethazine. 12 day withdrawal.

Cattle: 1 bolus per 200 lb.

## **GATTLE MINERAL & FEED**

### CRYSTALYX MINERAL

**CRYSTALYX 200 LB. BEEF PRO 35 LICK TUB** 35% protein tub containing Biuret, an ADM exclusive source of slow release, non-protein nitrogen that enhances the rumen microbes' ability to more extensively digest forage.

HUB58714B 200#.....\$176.50

**CRYSTALYX 250 LB. BGF30 LICK TUB STEEL** CRYSTALY BGF-30 is a complete, self-fed supplement specially formulated for cattle consuming fresh or stored moderate to low quality forages. BGF-30 combines rumen degradable protein, rumen bypass protein and non-protein nitrogen in an energy-rich, mineral-dense, weather-resitant package.

HUB3841ST 250#.....\$172.50

**CRYSTALYX 250 LB. HE-20 LICK TUB STEEL** Twenty percent crude protein supplement consisting of a nutrient-dense blend of molasses solids, protein, hydrolyzed vegetable oil, vitamins, minerals and trace minerals. Provides essential supplemental nutrients to livestock consuming moderate quality forages. The continuous nutrient availability promotes efficient utilization of supplemental nutrients.

HUB3915ST 250#.....\$144.50

**CRYSTALYX 250 LB. IGR PRO LICK TUB STEEL** CRYSTALYX IGR Pro is a protein an dvitamin supplement to help prevent adult horn fly emergence from manure. CRYSTALYX IGR Pro allows for uniform consumption, 24/7 across the herd for maximum fly control as compared to other free choice supplements. Contains chelated/organic trace minerals.

HUB370KST 250#.....\$195.00

**CRYSTALYX 250 LB. BLUEPRINT 20 AN** Blueprint 20 AN LMB contains 20% crude protein from all vegetable based ingredients. It is designed to be fed to beef cattle on good to medium quality forages to help improve forage utilization. Blueprint 20 AN is uniquely fortified with all highly bioavailable organic trace minerals and contains no inorganic trace mineral forms. The Blueprint line is intended to provide optimal trace mineral nutrition to meet today's advanced animal genetic demands while protecting the environment from unnecessary over supply of less available forms. Blueprint is a registered trademark of Alltech.

HUB60424ST 250#.....\$181.75

CRYSTALYX 250 LB. LONO-LYX LICK TUB STEEL CRYSTALYX lono-lyx B300 gives you all the advantages of a CRYSTALX supplement program plus the added benefits of BOVATEC - the leading ionophore feed additive for pasture cattle. BOVATEC is proven to increase weight gain in pasture cattle. In fact, 84 pasture studies conducted between 1980 and 2000 showed that BOVATEC improved average daily gain (ADG) by 9.87% or 0.14 per-head, per-day. Individual results may vary. BOVATEC is a registered trademark of Zoetis.

HUB3906ST 250#.....\$218.50

**CRYSTALYX 250 LB. CRYSTAL-PHOS 8 LICK TUB STEEL** A CRYSTALYX Crystal-Phos 8 is a unique, nutrient dense, palatable, self-fed mineral supplement designed to complement the mineral composition of grass or legume forages. Crystal-Phos is unchallenged in terms of uniform consistent mineral delivery regardless of any abusive weather conditions.

HUB7730ST 250#.....\$235.00

**CRYSTALYX 60 LB. STABLE-LYX LICK TUB** CRYSTALYX Stable-lyx is a unique, palatable, nutrient dense supplement designed for consistent self-fed consumption by all classes of equine. Stable-lyx ensures daily intake of trace minerals and vitamins necessary for top performance.

HUB7237P60 60#.....\$61.50

**CRYSTALYX 125 LB. SWEET 14 LICK TUB STEEL** CRYSTALYX Sweet 14% is a nutrient-dense supplement designed for cattle, equine, bison, sheep and goats. It can be fed in pastures where various species co-mingle. Sweet 14% provides supplemental protein and energy to livestock consuming forage-based diets.

HUB3854ST 125#.....\$84.00

**CRYSTALYX 250 LB. BRIGADE LICK TUB** CRYSTALYX Brigade Stress Fighting Formula is a nutrient dense, self-fed supplement fortified with electrolytes, high levels of vitamins and minerals and chelated/organic trace minerals. This helps overcome nutritional stress associated with weaning, shipping, grouping and the breeding period.

# EAZI-BREED CIDR

#### **EAZI-BREED CIDR IMPLANTS**

Cattle breeding is more successful with the Eazi-breed CIDR (progesterone) cattle insert. It improves the timing and efficiency of beef cow and heifer breeding programs when using Lutalyse (dinoprost tromethamine) sterile solution. The Eazi-breed CIDR insert provides precise control of the estrous cycle, allowing more cattle to be bred in less time.

PZRCIDR 10's......CALL FOR PRICE PZRCIDRAP Applicator.....\$20.00

# KAMAR PADS

Kamar Heat Detector Pads. Glue onto the tailhead of a cow. When cow is mounted by a herd mate, constant pressure from the mounting animal turns the detector red. This leaves a visible indication that the cow mounted may be in heat and ready to breed. Comes with detectors, adhesive, adhesive spreader, gauge, applicator and instructions. 25 pads per box.

KMRPAD box (25's).....\$32.00

CALL TOLL FREE 800-548-7270 Billings MT 800-548-5855 Great Falls MT

#### **ESTROTECT**

An excellent aid to the herdsman's visual observation program for detecting cows in standing heat. Apply to your cows prior to standing heat or when your cows are given injections to synchronize their estrus cycles. When cows are mounted during standing heat, the scratch-off surface of Estrus Alert is rubbed off exposing a brilliant red, fuchsia, blue or green signal layer underneath. Additional mountings result in increasing color exposure. Your cows are bred at the ideal time resulting in more pregnancies greatly improving your bottom line.

# WD-40

Known as "the can with a thousand uses". Protects metal from rust and corrosion, penetrates stuck parts, displaces moisture, and lubricates just about anything.

110054 12 oz. Smart Straw.....\$ 3.49

# FLUID FILM

# **UNIQUE PRODUCT FOR RUST PROTECTION!**

Can be applied to just about any indoor or outdoor surface. Since it is a non-drying product, it will leave a thin wet film. Unlike many oil-based products on the market, there are no solvents in the product. When there are no solvents, there are almost no VOCs to evaporate. With very low VOCs, everything that you apply stays on the surface to protect it from rust. Not only is this method environmentally friendly, but it allows the product to go further per ounce than solvent-based products. **ECCACFF** 11 3/4 oz.....\$11.50

#### **SUTURE & SUTURE NEEDLES**

#### ROUND BODIED AND REVERSE CUT-

The body of the round bodied needle tapers down to a fine point, permitting minimum tissue damage. The needle is flattened in the middle, thus ensuring a firm grip for the needle holder. This needle is especially suitable for soft tissue. The triangular, reverse cutting needle is intended for suturing tough tissue. The three edges run over the entire length of the needle and give the needle holder a firm grip. Assorted sizes and shapes.

MILK TUBES - 3 1/2" ADJUSTABLE Self-retaining tubes designed to insert into the teat canal. Can be adjusted to different lengths. The self-retaining slider ensures the tube will remain in teat until removed by hand. 2 side openings, 3 1/2" long, adjustable, stainless steel.

IDN424.....\$3.00

## **DOSE ADAPTOR**

4" LUER LOCK TYPE Fits all standard luer lock and luer tip syringes. 4" JGL206A.....\$8.00

#### CLEAN AND STERILIZE YOUR INSTRUMENTS PROPERLY

Immediately after use, flush the entire system with hot, clean water to remove all residue. Do this by first adjusting dosage setting to the maximum of the instrument, inserting the draw-off into the hot water, then pumping briskly until all residue is removed...about 1 minute. Rinse by briskly pumping clean, hot water through the system. Pump dry and remove tubing. Then pump a few drops of Syringe Lubricant to properly lubricate valves and O'Rings. This will improve operation and greatly extend the life of internal parts. Not Recommended: Mineral Oil, Glycerine, or Alchohol. Sterilizing:

# DART GUN

# CAP-CHUR SS CARTRIDGE-FIRED RIFLE

Uses CapChur approved .22 blank power loads to propel medicated syringes, allowing you to treat or immobilize animals safely in the field or feedlot. Power loads maintain consistent propellant force from one use to the next. Rifle is effective from approximately 5-25 yards, depending on power load strength and size of syringe used. After injecting, the syringe stays in place for a short time before falling out. Cartridge-Fired Rifle has a stainless steel barrel to resist the corrosive properties of some antibiotics. Comes with practice darts. Case sold separately.

PCCSDG stainless steel.....\$650.00

# PNEU DART RIFLE AIR GUN - MODEL 178B **DART GUN**

The Model 178B is an air driven projector designed for the person who has limited or occasional use for an immobilizing projector. Its design is simple yet effective.

Bismusal is a palatable oral suspension for use and aid in the control of simple diarrhea. Administer orally after the first sign of diarrhea and after each loose bowel movement or as needed. Calves & foal-3 to 4 oz., cattle & horses-6 to 10 oz.

DVTBIS4 gallon.....\$19.00

#### TRI-PECTATE

Stimulate enzymes and improve appetite. Assist in the digestive process. Provides energy and improves absorption of electrolytes. DI-RECTIONS FOR USE: Orally feed 30 ml syringe to calf. May be repeated as necessary. VBNTPP 30ml syringe.....\$6.95

#### **CALF GUARD (Zoetis)**

A modified live virus for use in controlling rotavirus and coronavirus diarrhea in newborn calves. Give one 3 ml dose into back of calf's mouth.

SMKCG01 1 ds.....Call for Price

#### PROCRYPT MINERAL **SUPPLEMENT - 4.5#**

Procrypt has selective binding properties that have been proven effective against major known pathogens and can be used in all livestock species and is safe for the environment. Pathogen-load reduction with multiple modes of action impacting pathogen Promotes liver health -reduces toxin load, improves liver function, reduces liver abscesses. KAGPMS .....\$35.00

#### FIRST DEFENSE TRI-SHIELD

Only USDA approved product proven to aid in the prevention of calf scours caused by K99 piliated Escherichia coli, coronavirus and rotavirus. Provides immediate and lasting immunity for newborn calves. Ingredients meet NOP/ USDA standards for use on organic farms. No slaughter withhold.

**FDEFENSE** 1 dosetube.....\$16.25

#### SX CALF ORAL ELECTROLYTE

A novel electrolyte solution fed to calves suffering from dehydration. Rehydrates calves in as little as 6 hours. contains at least four compounds not found in other products on the market. These compounds act synergistically with each other to normalize the flora of the gut and promote rapid rehydration of the animal. 5 ds...... 10 ds.....

#### **EXCELL PRO RCC PASTE**

Nutritional feed supplement for livestock with three specific IgY immunoglobulins. For optimum results administer to calves at birth and following stress periods. Repeat dosage as necessary. The Biological components were selected for their symbiotic relationship with the gut microflora. All components are safe, natural biological products.

KAGEPRCC60 60 gm.....\$11.75 KAGEPRCC300 300gm.....\$30.00

6" long needle with large eye. For use with umbilical tape and on sheep.

JGL26.....\$18.50

### Dr. BUHNER'S PROLAPSE NEEDLE

12" long, stainless steel prolapse needle with large eye, for use with umbilical tape. JGL26S.....\$25.00

# **CALVING SUPPLIES**

#### **SUTURE NEEDLES**

Round Bodied Needle. The body of this needle tapers down to a fine point, permitting minimum tissue damage. The needle is flattened in the middle, thus ensuring a firm grip for the needle holder. This needle is especially suitable for soft tissue. Available in 1/2 circle and 3/8 circle.

MSFSN .....\$2.75

**Reverse Cutting Needle**. The triangular, reverse cutting needle is intended for suturing tough tissue. The three edges run over the entire length of the needle and give the needle holder a firm grip. Available in 1/2 circle, 3/8 circle, straight and S shaped.

MSFSN \$2.75

Formulated to reduce the risk of bateria and fungal infections in uteruses to aid in healing. This product has been shown not to create scaring of the uterine lining. This flush can be infused or flushed and aids in low grade infection reduction. No with hold of milk required. Has been shown to reduce the time of re-breeds. Aids in increasing conception rates.

APTEZBF2	2 oz	\$5.00
APTEZBF16		\$21.50
APTEZBF32	32 oz	\$36.00

#### **CALF WARMERS**

# **CALF WARMERS**

Now you can choose between 110 volt and 220

volt calf warmers. Place cold calf or calves into box and close the lid. Allow calf to dry entirely. One of the best features is that the heat blown into these warmers is allowed to flow around the entire calf and dry it completely underneath. The 220 volt heaters will dry a calf in 45 min.-1 hour, while the 110 volt heater will dry a calf in approximately 3 hours. Depending on outside temperatures.

Red/Yellow 110
volt calf warmer
complete w/heater.
Requires 3 times
more drying time
than the 220 volt
EWCWAR110

.....\$600.00

(size 36" x 24". 80 lbs.) (Holds 1-2 calves)

Blue/Yellow 220 volt calf warmer w/ heater. Now bigger with side door and removable lid which doubles as a sled EWCWAR220......\$875.00

(Holds 1-2 calves) (size 48" L x 24" W)

#### **HEATERS**

#### 110V HEATER

For red warmer only EWC110H.....\$100.00

#### 220V HEATER

We are offering our 220 volt heaters for sale separately. We like a 220 volt heater vs. a 110 heater as the 220 is more efficient and dries a calf considerably faster than 110.

(for yellow & blue/yellow warmers)
ZTEHEAT ......\$275.00

#### **COW HIP LIFT**

### **COW HIP LIFT**

Completely adjustable to fit any size of cattle. Large rings are placed over pelvic bones and tightened by turning crank. Chain is placed into ring at top of lift. Animal can then be raised w/loader. A must for downed cows, calving, paralysis or prolapsed uterus. "Made in Montana" HMRHIPLOC hiplock......\$250.00

#### **CALF SLEDS**

#### **HEAVY DUTY CALF SLED**

Constructed of tough, rugged polyethylene. Designed to pull with ease over snow, mud, hay etc. Ideal for hauling lambs, calves, wood, hay or kids. Assorted colors available.

(2' x 4' x 12" deep) EWCSLED.......\$75.00 EWCSLHD......\$90.00

Chore & Calf Sled, Heavy duty (56"x28"x14" deep) Cannot UPS this size

EWCSLEDS......\$135.00 Heavy-duty slotted calf sled

## **SUN-TAG CALF SLED**

Designed so the cow can see and smell her calf while it is safely in the sled. Unique design is both safe and user friendly. It allows you to move a newborn calf to a desired location with a minimal amount of effort and a high emphasis on safety. SUN-TAG SLED is manufactured in Saskatoon, Saskatchewan, Canada and is made with new – not regrind – medium density polyethylene. This is very durable for harsh winters right from the mud to the extreme cold.

STSLED.....\$180.00

# **CALF PULLERS**

#### DR. FRANK'S

The most dependable and best liked calf puller has stood the test of time. Provides even, constant tension when delivering calves. No gears or cables to rust and tension is released with the press of a lever. Comes in two section, screw-together shaft. Can be disassembled for easy storage. 23" breechen is wide enough for even large cows. Complete w/nylon back strap and 45" chain. Made in U.S.A. IDN3003 screw rods.......\$249.00

#### **RATCHET STYLE**

For difficult calving. New design, easy to operate, sturdy. Special 2 piece shaft for storing. Extra long: 77 inches. Precision made grooves to guarantee against slippage. With the one handle you can move the two separate hooks alternately and in this manner, pull first one limb and then with the next movement of the handle, the other. The most difficult presentation can be zig-zagged out in this manner. Heavy gauge 100% zinc plated components for long rust-free operation. OB chains sold separately. 20.9 lbs.

STNCPULL.....\$299.00

## STONE (STANDARD)

Sturdy Power Pull calf puller features heavy duty cable come-a-long with 9' galvanized steel aircraft cable. Specially designed grab-hook bites chain at any point. Easily detachable power pull with chain allows alternate uses or convenience in stall calving. Features strong aluminum alloy breech spanner plus thick walled nickel plated tubular steel rod with two sections. Slip joint for easy assembly. Includes heavy, washable web-strap. OB chains sold separately. 24 lbs.

STNXPULR calfpuller.....\$395.00 STNXPPUL power pull only...\$265.00

# **CALVING CHAINS**

### **COLOSTRUM SUPPLEMENTS**

#### **BCP FIRST COLOSTRUM**

BCP First Colostrum is indicated for use in neonatal calves as an aid in the transfer of passive immunity, and as an aid in the prevention of

severe diarrhea and death associated with K99 E-Coli in neonatal calves. Benefits include, higher protein source from BCP First Colostrum because IGG's are higher, resulting in calf having a better chance of achieving optimum health. High vitamin levels result in stronger bones, better immune system and a healthier calf. Lactic acid helps the digestive system take in food stuffs from the mother and to better assimilate this feed intake resulting in a better growing calf and higher weights at weaning.

DVVCOL 1 ds.....\$13.50

#### **COLOSTRUM BOLUSES** & POWDER

Contains freeze dried colostrum plus lactobacillus and Vitamins A, D & E. Administer 1 teaspoon after birth in milk or milk replacer. Continue administration of product as long as calves are on milk replacer.

**KAECPWD** 18 oz.....\$18.25 Administer one bolus at birth. One bolus twice daily as needed.

25's.....\$16.00

Traps and holds up to 30 mice. Self-setting, always ready. Uses no bait or chemicals. Designed to be placed along walls or under most anything. Once inside they can't get out.

MLRTRAP.....\$18.00

#### **KETCH-ALL MOUSE TRAP**

Automatic mousetrap catches 15 to 20 mice in one setting without bait or poisonous chemicals.

KNSTRAP.....\$18.50

# **PRAIRIE DOGS**

#### **KAPUT-D PRAIRIE DOG BAIT**

#### LICENSE REQUIRED

These are Restricted-Use Pesticides. A state-issued Applicators License is required to purchase these baits. Before use, please read the EPA Bulletin at www. epa.gov/espp or call 1.844.447.3813 for specific guidelines for your area, the entire product label, and follow all use directions and precautions. You must use the EPA Bulletin valid for the month in which you will apply the product. Kaput®-D Prairie Dog Bait and Kaput Combo Prairie Dog Bait: Place ¼ cup of bait at least 6 inches down prairie dog burrows either by hand or with a mechanical bait placement machine. Make sure no bait is left on the soil surface. Applicator must retrieve and dispose of any bait that is spilled above ground or placed less than 6 inches down the burrow entrance. You MUST use the EPA Bulletin valid for the month in which you will apply the product.

# **GULBAG FORAGE HAY TREATMENT**

# Cultac

Did you ever wonder how much hay (feed) goes to waste with your hay handling system? You probably have, especially if you had to buy extra hay to get through the winter feeding period. A recent university study reported the following losses under three different hay harvesting and handling systems.

TONS NECESSARY

	% HARVEST	% STORAGE	% FEEDING	TO HARVEST
SYSTEM	LOSS	LOSS	LOSS	1 TON OF FEED
Conventional square bale	20	5	5	1.4
Round bale (outside storage)	20	30	5-25	2.0
Round bale (inside storage)	20	23	5-25	1.9

You can improve the efficiency of your haying program by lowering these excessive losses and end up with more feed. Culbac Forage Liquid is one management tool that offers considerable benefits for your haying program. Culbac Forage Liquid gives you more flexibility by allowing hay to be baled with a wider moisture range. This advantage alone can be a significant factor in reducing harvesting and feeding losses. Make Culbac Forage Liquid a management tool in your haying program.

# **GULBAG FORAGE SILAGE TREATMENT**

#### **CULBAC/FORAGE "THE SWEET SMELL OF SUCCESS"**

#### Success is measured in many ways when it comes to forage additives:

- ☐ One 25 lb. bag of Culbac/Forage (CULSIL25), will treat 125 tons of corn silage and return 5,125 lbs. more
- ☐ Sweet smell means an absence of spoilage and increased palatability.
- ☐ Controlled fermentation temperature indicates less run-off and increased nutrient content.
- ☐ Culbac/Forage is a patented lactobacillus fermentation product The number one fermentation product in fo
- ☐ Culbac maximizes efficiency in haylage and silage production, saving at least one-half of the normal proteins
- ☐ Culbac/Forage provides more total pounds of protein and nutrients available to your animals.

# **GULBAG APPLIGATION GHART**

#### SWATHER APPLICATION: (Preferred)

= GPH

Apply at 1 quart per ton of fresh forage. Mix 2 gallons Culbac to 23 gallons of water.

Calculate

W x MPH x YIFLD For 32 oz./ton

33

Yield= Tons/Acre/Cutting W= Swather Width (ft.) MPH= Swather Speed GPH= Gallons Per Hour

Example 1

14' swather traveling at 4 MPH, cutting 2.5 tons per acre. 14 x 4 x 2.5 = 4.24 GPH 22 1) (Find pressure in Table

33

From tale 1 you can use 2 nozzles at 45 psi or 3 nozzles at 25 psi.

12' swather traveling at 4 MPH, cutting 1.5 tons per acre. (Find pressure in Table

 $12 \times 4 \times 1.5 = 2.18 \text{ GPH}$ 

From table 1 you can use 2 nozzles at 12 psi

#### **BALER APPLICATION:**

Mixing 2 gallons of Culbac to 23 gallons of Example 1 water = 100 quarts.

1 quart to a ton

Bales weigh 1500 lbs. = 3/4 quart because 1500 lb. bale is 3/4 the weight of 2,000 lbs. (ton).

Say you roll out 10 bales per hour, that means 6 minutes to make a bale. So nozzles should fill a quart bottle 3/4 full in 6 minutes.

Example 2 Mixing 1 gallon of Culbac to 24 gallons of water = 100 quarts

2 quarts to a ton

Bales weigh 1500 lbs. =1 1/2 quarts because 1500 lb. bale is 3/4 the weight of 2,000 lbs. (ton). Need double strength because 2 quarts to a ton, so 3/4 x 2 =1 1/2 quarts.

Say you roll out 15 bales per hour, that means 4 minutes to máke a bale. So nozzles should fill 2 quarts 1 1/2 full in 4 minutes.

Table 1 - Gallons per	r Hour	and Pre	essure 1	abie
Gallons per Hour	N	umber of	Nozzles	(GPH
Droccuro (DCI) 1	2	2	1	

Pressure (PSI)	1	2	3	4

# SHOP located at 1615 Sixth Ave North Billings, Mt 59101

**SHOP Hours:** 8:00am-5:00pm Monday thru Friday

# G5 MFG, LLG+ BALE BED

# The Bale Bed that dumps! Haul your bales with a Chisholm Trail.

#### LIFT ANY LOAD:

Any size-round, square, wide or narrow bales or CONTROL ARMS INDIVIDUALLY

for side shifting and better bale movement. Unload or fill ring feeders from tough angles. Safely adjust an unbalanced load! When it comes to end-to-end bales, no problem!

#### **REAL HANDY FOR DUMPING:**

Dump bales on the go. Dump capacity is 6,000 lbs.

#### NO NEED TO JACK TRAILERS:

Lift your Cannonball-with the ball in the bed-to the bottom of the window. Raise or lower the trailer's stand and be on your way. Handle

#### **REDUCE HAY LOSS:**

While enjoying the ease of a free-float arm system. Bales maintain contact with the ground over all terrains to prevent skips and thick blankets.

#### TIPS FOR BATHING YOUR HORSE:

Bath time is a great opportunity not only to bond with your horse, but also to give her a good "look over" for any health conditions that may escape your attention during regular grooming. A frequently asked question is, "How often should I bathe my horse?" And the answer varies greatly depending on owner preference, use of your horse, if you show or not, what the weather is and where you keep your horse. Most horses don't necessarily need bathing — a thorough rinsing to remove sweat and loose hair is usually enough to keep their coat and skin healthy, and over-shampooing may cause dry skin and coat conditions. Of course, if you are headed for a show and she has just rolled in her favorite mud hole, a good bath may be your only option for a clean and shiny coat.

#### **CONSIDER THIS:**

Using a premium made-for equine conditioner on your horse's mane and tail will enhance those locks and keep them looking beautiful. If you want your horse's tail to grow, keep it loosely braided or in a tail bag.

**HORSE CARE SPONGE** 

A high quality sponge that will last you all season. Ergonomically shaped and very durable.

934170 ......\$3.00

It supports healthy gut function to help reduce the possibility of sand colic. Best fed one week per month as a purge to remove direct and sand from the gut in volume.

5 lb.....\$32.00 DVTSR5

## FORCO FEED SUPPLEMENT DIGESTIVE FORTIFIER

The digestive system is at the heart of most major problems in a horse such as colic, diarrhea, compaction, founder, poor doers, poor appetite and weight loss. FORCO® Feed Supplement Digestive Fortifier is a source of nutrients that feed and nurture the entire scope of bacterial and microbial populations in the full spectrum of the digestive system. The FORCO formula helps to bring a horse's digestive system to full performance. Hay, grain, vitamins, and mineral supplements can now be broken down into a form that can be absorbed into the blood stream of the horse, thus, providing maximum nutrition to every microscopic cell in the horse. FORCO assists in producing maximum digestion for maximum nutrition!

#### **JOHN EWING COMPANY**

#### **FORMULA 707 HOOF HEALTH**

In addition to 15 mgs of biotin, each ounce of Biostride with methionine contains 150 mgs of the amino acid, DL-methionine.Methionine has been used by veterinarians, farriers, and trainers for years as a source of sulphur.

This makes sense, since hooves and hair are 2-3% sulphur. These two nutrients, biotin and methionine, are mixed in a base of yeast culture, a feed additive renowned for it's digestion-enchancing abilities. Feed one ounce per day (measuring scoop inside).

**EWGHH5** 5 lb .....\$36.75

#### **SUPERSAL-A**

Mix one part Supersal-A concentrate with one part salt. Feed 1 oz daily with grain to young growing animals for better skeletal development and earlier closing of the knees. Feed the same to barren brood mares to get them to cycle earlier, stay on time and settle easier. Feed to pregnant mares to assist in foal development. Supersal-Ais for horses that feed primarily on alfalfa.

5 lb ......\$16.50 **EWGSSAL5** 

#### **FORMULA 707**

The world's best conditioner. Helps with bloom, alertness, clear eyes, clean noses, and overall general condition and appearance. Also contains chlortetracycline which is necessary for optimal growth and feed efficiency. Feed two ounces daily to horses of all ages.

Great for starting barrel training, or on horses with a sensitive mouth. It is nice and soft, offering complete rate and body lift for turns. 6" shank.

# DIAMOND LONG SHANK

The longer shank gives more leverage to maintain rate and body position in turns with speed. 7-1/2" shank.

#### Classic. Equine<sup>®</sup>

#### **FLEXION BY LEGACY**

The Flexion technology provides individual abrasive resistant cells on the Fetlock Cradle System with impact and wear protection never before seen in the equine leg protection space. Each Flexion cell can move and stretch individually.

#### **BEST EVER PADS**

OG COLLECTION has been the core of the company since 2002. Our top-quality 100% needle punched wool is 112 ounces per square yard, making this pad firm, durable and extremely breathable. It is dark gray in color and is available in 1" or 3/4" thickness.

#### **KUSH COLLECTION**

is 100% high-quality washed and pressed wool. At 136 ounces per square yard of pressed wool, is is by far our most durable and resistant pad to date. It's properties allow it to be soft and flexible while allowing it to maintain it's high compression resistance. It is light gray in color and available in 1.25″, 1″ and 3/4″ thickness options.

#### THE CEO COLLECTION

offers three levels of support and different customization options, from fleece or neoprene lining, to special pad inserts that come stock in the BHS and Cadillac series. If your horse is in need of superior support and protection,

the CEO Collection is sure to have what you need. Best Ever Pads also have hand painted and hand tooled options.

#### **BONES 2.0**

#### **BONES**

Bones Heading Dummy is an incredibly realistic and portable roping dummy that will help you hone your heading technique. This heading technique. This heading dummy is made from durable, molded plastic. With a sturdy and wide base, you don't have to worry about this roping dummy tipping, slipping, or sliding. Each Bones Heading Dummy comes with a horn wrap and three sets of horns (19" - small, 28" - medium, 33" - large) for variable practice scenarios. The perfect roping dummy for headers, the Bones Heading Dummy is a realistic dummy that you can bring anywhere you go. With three sets of horns and a sturdy, wide base, this roping dummy will make you feel like you're in a real live rodeo roping cattle. Use this roping tool to practice swing angles, loop placement, and muscle memory. Available in black, brown, purple, white blue grey and red

#### THE TRAINER

The brand-new TRAINER will be replacing all older versions of the Ground-Driven models. It features a completely new hop sequence that is the EXACT replica of a live cattle in tow and has even been matched correctly to real

cattle movements by a mechanical engineer professor from Baylor University. This is THE machine to own if you want PERFECT PRAC-

HŎMDRIFTER.....\$3,490.00

#### THE SMARTY ROPING DUMMY

The Smarty is the only training machine of its kind, developed by 4x World Champion Allen Bach.

He was determined to build a machine with a realistic corner, to make you ride in perfect position every time. Dallying is just like

live cattle in the sense that the legs come together when you dally and stretch up to six feet between the tow bar and legs. The legs are also shaped and modeled to feel the same as a live steer. It's not just a heeling machine, with the realistic head design and size this is also a headers go to machine. The turn loose horns make it easy to rope with just two people.

#### **PIPES**

Allen originally built the Pipes to help himself demonstrate techniques while teaching at roping clinics. Since then he has perfected the perfect ground heeling dummy now known as the Pipes by Smarty. Still to this day Allen implements using the Pipes in his daily practice routine and when teaching his training methods at roping clinics. The Pipes is made out of a durable black powder coated metal with realistic legs just like the Smarty and Smarty Xtreme. It is very easy to load in your truck or trailer when your on the fly and is easy to assemble or disassemble. It can quickly be adjusted to different heights for your personal preference when practicing.

#### THE SMARTY ROPING DUMMY

The Smarty Xtreme is our most dynamic machine yet! This machine is a

key tool when it comes to perfecting your timing and puts even the best of ropers to a test each time. It's not just a heeling machine, with the realistic head

design and size this is also a headers go to machine. The turn loose horns make it easy to rope with just two people. The durable tires are solid and guaranteed to never go flat. The tires were designed to create a pivoting action that gives you a realistic corner. The Smarty Xtreme comes with a battery and a charger included for the LED light system.

### PACK EQUIPMENT

### **PACK SADDLES**

PACK-A-SADDLE

The versatile packing system can be used on a sawbuck or Decker Pack Saddle or a western riding saddle. The panniers are detachable so they can be packed, loaded and weighed one at a time. Three roller buckles let you adjust pannier ride height. The top pack secures to saddle with compression straps and has two

RALPAS.....\$430.00

### **PANNIERS**

The High Country Plastic Pannier set is durable and functional. Panniers come with screw inserts for use as

a table. Pannier has curved sides to fit your horse, molded in tabs to secure lid in table position. Straps pass through slots in box sides and are attached to a PVC tube within for extra strength and easy adjustment. Size is 29"long x 14"wide x 18"high.

HCPPKB2B Brown.....\$250.00

### **SADDLE BAGS**

Durable nylon saddle bags feature zip closures. Nickel plated hardware. 9-3/4" W x 11-1/2" L x 4-1/2" D. Available in black, hunter green or brown.

WVR0171.....\$24.00

### **PACK PADS**

30" x 44" canvas pad with 1" felt bottom.

RLC469.....\$65.00

30" x 40" canvas pad with kodel bottom, 2" kodel overlap, and 1" felt filler. RLC473......\$95.00

# COLLAPSIBLE WATER BUCKETS

These collapsible troughs serve as wash basins, camp reservoirs, stock troughs, or kitchen sinks.
Collapse down for easy storage and takes up little space. Made of rugged vinyl coated nylon with a heavy-duty bottom. The semi rigid top ring keeps the top open but is soft enough to even be folded.

RALCB161

3 gal.....\$22.00

Darcie Baum, packing into the Bob Marshall

Cantle bag is easily removed to pack and load. Attaches to saddle at six points. Foam insuliners protect cargo. Highly water resistant, 1000 denier cordura. Protects saddle horses from gear slapping against them while riding. Includes saddlebags with removable insuliners and detachable cantle bag.

RALTM125 Junior.....\$78.00

Leather Cantle Bag.
Soft oiled leather,
brown w/zipper closure.
ABC4609......\$55.0

### RIFLE SCABBARDS

The TrailMax Guardian Rifle Scabbard completely encloses a scoped sporting rifle, locking out the weather, and protecting it from rugged use while riding and hunting. Encased in a high density foam liner and shielded by a cordura nylon shell, the Guardian maintains excellent access with a zip open scabbard flap which can also be secured with a fast-tex buckle. Handy outside pocket carries extra ammo and other necessities.

RALSC137 54".....\$100.00 RALSC135 right side.....\$60.00

Harness Scabbard with flap, unlined. One piece constructed scabbard is formed to fit lever and bolt action rifles with standard sized scopes up to 50 mm with standard rings and base. Measures 40 1/2"long x 8" at the widest point. Will fit barrels up to 26".

ABC4614.....\$110.00

Cordura Rifle Scabbard is designed to attach easily to the saddle. Made with 100% denier nylon. Filler is a stiff closed cell foam to give the scabbard body. Similar to a leather scabbard. Available in right hand only, left hand can be ordered upon request.

SRP948.....\$65.00

### HORSE BLANKETS

Visit our website for all styles and sizes and prices!

We carry a wide variety of styles and sizes in Classic Equine Brand of winter horse blankets.

Horseware started with a small team, in Dundalk, Ireland in 1985. After months of research and hand-stitching the prototype of the now iconic Rambo Original was born, setting the standard for modern rug design. Since then we

### THERAPEUTIC

# HANSBO SPORT

INFUSED CERAMIC / I

INFUSED MAGNETIC

HANSBO SPORT ICM TECHNOLOGY; INCLUDING INFUSED CERAMIC AND INFUSED MAGNETIC.

RECOMMENDED BY VETERINARIANS, PRO-

**QUICK WRAP** 

Exclusive quick wraps, perfect after exercising to prevent swelling. The wrap is divided into two parts. The lining closest to the horse's legs are made of a soft, infused ceramic/magnetic polyester. The ceramic and magnetic materials are fused into every fibre, unlike similar products on the market, which means that function is not adversely affected after washing. The lower edge of the lining is reinforced with 420 g of Oxford nylon, for longer shelf life. The outer material is strong neoprene with four practical Velcro fasteners. This creates an optimum fit and comfort to keep the ceramic/magnetic lining in place. The lining is joined to the outer material with two Velcro fasteners, this makes washing the lining easier. On the top Velcro fastener there is an HS logo in rubber.

Sold in a 2-pack.		
HSQWP00012	12" Pair	\$97.50
HSQWP00014	14" Pair	\$97.50
HSOWP00016	16" Pair	\$97.50

### TROXEL SIERRA RIDING HELMETS

You'll be ready to hit the trails in the Troxel Sierra Helmet. Weighing only 14 ounces, this lightweight helmet is ideal for long rides. Mesh-covered air vents allow cooling airflow while a rugged nylon and leather finish stands up to regular use. Liner is removable for washing.

TRO4065M	Medium	\$120.00
TRO4065L	Large	\$120.00

### **SWEAT TRAVEL RUG**

Sweat & travel rug made of infused ceramic/magnetic material that reflects body heat and thus increases blood circulation, which is felt to have a healing effect on sore muscles.

The ceramic and magnetic material is fused into every fibre, unlike similar products, which means that function is not adversely affected after washing. Nylon lining at the shoulders and fleece lining at the withers, to prevent chafing. Double front buckles in zinc-nickel coating with quick releases. High shoulder gussets for best fit. Belly straps with hidden elasticity and rubber ring.

### HOSKINS LIVESTOCK WATERERS

# Here's the right waterer... at the right time..... and the right place is yours!

### **FEATURES:**

☐The unique heating design keeps water open in winter by heating the air beneath the tank. Most waterers heat the water, which costs more.

☐Hoskins Waterers are insulated, to save on energy requirements.

Adjustable thermostat is standard on all models, you set heat unit based on how cold it gets.

□Stainless steel float guards and brass drains minimize corrosion and plugging problems.

Tanks slope to drain for easy clean-out.

□Bob valves give years of trouble free service.

□25 year guarantee on stainless steel bowl against rust, corrosion and normal livestock damage.

□2 year guarantee on electric heater.

### Water is the producer's cheapest Feed

**COMPARISONS DONE AT CARRINGTON RESEARCH CENTER** Carrington, North Dakota by Vernon L. Anderson - 701-652-2055

Plenty of fresh, clean water is vitally important to livestock - winter and summer. Waterers keep the water flowing...maintenance free in summer and ice free in winter (ice-free water with important savings in electrical costs).

RITCHIE THERMAL COVER ADAPTER KIT. A number 5 Ritchie waterer was fitted with a Thermal cover during the winter of 1988-89. This kit contains parts to cover the surface of the water with insulated metal fitted with circular drinking well on each side. Thermal caps are provided to float on the water surface preventing heat loss to wind or cold air. Thermal Cover Kits are available for the No. 3 and No. 10 waterers also. Ritchie No. 5 without Thermal cover had a retail price of\*\*\$322.00 and the cost for heating for 135 days was \*\*\$70.50.

Ritchie No. 5 without Thermal Cover (Thermal Cover cost an additional \*\*\$110.95) or a total of \*\*\$422.95 or \*\*\$399.95 if purchased with the waterer and the cost for heating for same 135 days was \*\*\$36.84.

**HOSKINS MODEL** SC-32-16 is designed as a traditional metal waterer but has some features for energy conservation and durability. It has a curved stainless steel water tank. Heat source is a 500 watt electric heater that is mounted in the air space under the tank never coming in contact with the tank itself. This unit comes in a 16 inch or 26 inch high model. Hoskins Mfg. guarantees the water tank for 25 years, the frame for 5 years and the heaters for 3 years.

The cost of this model was \*\*\$300.00 and the cost for heating over the same 135 days was \*\*\$35.58.

These comparisons were done at the Carrington Research Center Livestock Unit which is part of the North Dakota State University. Information can be found in their Beef Production Field Day Booklet page number 24.

\*\*The above comparison prices are done in 1989 and are not current. For more information contact Western Ranch Supply Co, 1-800-548-7270.

1100 GALLON CAPACITY - ROUND 10' x 28"

Much like the 6'x2' and the 8'x2' tanks strong, rugged, close lipped. 135 lbs **KLNPR102......\$620.00** 

### 750 GALLON CAPACITY - OBLONG 7'X8'X28"

As EPA regulations and SPCC requirements tighten, many people in agricultural, industrial and automotive applications have transitioned to using our standard stock tanks as low cost, small scale secondary containment.

KLNPRE7828.....\$685.00

### **PICKUP TANKS**

Pickup tanks are selected as applicator tanks or when transportable (non-D.O.T. regulated) containment is required. Designed to fit most full-size pickup trucks. Manufactured from medium-density polyethylene with U.V. inhibitors and designed for containment of liquids of up to 1.7 specific gravity. Walls are translucent for level viewing and equipped with gallon indicators.

### **HD EZ-LIFT**

Safest way to load, transport and unload heavy items with the use of a hyrdraulic hay bale bed. This product was designed to eliminate the need for ramps, driving at incline/decline, and dismounting the recreation vehicle on a trailer or truckbed. All loading and unloading takes place at the ground level and the hyrdaulic hay bale bed arms do all of the heavy lifting while the user is safe on the ground. While it is primarily used to transport ATV's, you can place any-thing that will safely ride on the HD EZ-LĬFT. We have seen tools, fencing supplies, equipment, livestock feed, mineral tubs for cattle, lumber, and the list goes on and on. No need to lift heavy items up 4 feet to place on your flat bed. Simply slide it on the HD EZ-LIFT and let the bale bed arms pick it up to place on the bed.

WWMEZLIFT.....\$1,200.00

### CHAIN HARROWS

Garden tractors or ATV's can pull this flexible chain harrow. Ideal for smoothing yards or garden soil and dragging driveways, riding tracks, pastures, or arena footing. Allows dozens of metal teeth to set up when pulled to grab the soil or grade surface.

### **HORSE STALLS**

### SUPER TOUGH "Puck Board" - Looks Great and Lasts a Lifetime!

Horse Stall fronts and dividers are 7 feet high and available in 10 & 12 foot lengths. All fronts and dividers are constructed of 1.5 inch high tensile strength steel tubing. Critical joints are saddle welded for maximum strength. Panels are specially designed with connectors to interlock (no posts required). Only one adaptor post is required per group of stalls. The solid sheeting is 1/4" "Puck Board". This highly durable plastic/nylon is the same material that is used in hockey arenas. The "Puck Board" makes a very sanitary and aesthetic stall filler. Stall front is available with a rolling door.

# ROUND BALE FEEDERS

LIENEMANN BEXTRA HAY SAVER BALE FEEDER PMIBEX

(285 lbs.).....\$950.00 14 ga. uprights, 16 ga. rings 3 piece bolt together

The Bextra Bale Feeder demonstrates hay savings of up to 70% over conventional feeders. Cattle eat from the bottom of the feeder in their natural grazing position. Indented uprights balance the bale in the middle for minimal waste. Great for adult and young cattle.

LIENEMANN BEXTRA SQUARE HAY SAVER BALE FEEDER PMIBEXSQ

### SI WASTELESS ROUND BALE FEEDER Round bale feeder from S.I. Feeders

SIFAPFW.....\$2,600.00

Basket allows bale to set on the ground.

Transforms conventional feeders into low-cost Haysaving feeder.

Uversatility for producers to use as a Hay-saver or as a conventional feeder based on animals or hay types.

□Animals consume at the bottom of the balanced bale feeding area.

□Economic and flexible solution to high cost problem with significant hay savings over conventional feeder.

□Producers cán use existing conventional 8' feeders with substantial reduction in hay waste and prevents lightweight calves from entering feeders.

### WINKEL HOOP BALE FEEDER WKLRBHP

(500 lbs.)...........\$1,655.00 Diameter 8 1/2', 68" high. Restricts cattle from pulling hay out of feeder onto ground. Keeps your high quality hay off the ground for 20% less waste. Heavy 3-piece bolt together.

Strongest front end - Superstrong front steering pipe is built into the feeder. Slant bars form truss bracing. Offset spindles create a caster-steering angle for safer towing. ☐Feed savings:

- Functional slant bars save feed.
- Deep manger retains feed.
- Round tubing reduces bruising to livestock.
- Feed-saving edge saves grain and leaves.
- Floor-saving manger is tapered in so feed will slide back and avoid accumulation.
- Wide center peak channels feed for easy reach
- Inside bows control feed flow.

Single axles standard on all Arrow Front feeders
- 8 ton capacity on 12', 16' & 20' feeders.
- 10 ton capacity on 24', 30' & 36' feeders.

□Feed manger made of 12 gauge rust resistant steel

☐Rust and acid resistant green paint

□Inserts can be added to any Arrow Front feeder - Inserts are used most commonly for chopped hay, green chop and that flows. They are available in 2' high or 4' high to match length's of wagons.

DWe do stock some Arrow Front feeders - Please call for availability.

### PIONEER DOUBLE ROPE CATTLE OILER

Apply oil and insecticide onto ropes by gravity, no pumps and gadgets. Oil is more gentle on animal than diesel fuel. Oil treats hair coats and reduces flies and lice. Änimals use oiler instead of rubbing on fences and feedbunks. Built out of 2 7/8" pipe and heavy duty plates for years of reliable service. Ropes are user friendly, wrap around animal for maximum coverage. Gentle rubbing action does not tear out ear tags. Weld-on kits available to be attached to all types of old oiler frames PCCDRO......\$2,100.00

### TASKMASTER GAKE & GRAIN FEEDERS

### **FEATURES:**

□1,400 lb. & 1,600 lb. models are made to fit between the truck cab and big bale loader.

□Chain driven, will not slip.

□3/4 horse, 12 volt electric motor. 70 amp, 650 rpm. Material flow can be altered simply by adjusting auger cover inside unit.

□Large 7" auger moves slower, preventing wasteful cube damage.

©Control is a simple toggle switch mounted in cab of truck.

Double hinged lid allows easy filling.

Both feeders are primed and painted white.

☐ Motor is under manufacturers warranty for 2 years.

### **CALF TABLES**

### HYDRAULIC CALF TABLE

☐Handles calves up to 300 lbs. ☐Operates off tractor, bale bed or remote hvdraulic unit.

□Works up to 100 calves per hour.
□Takes the work out of branding.

Speed and clamp pressure is adjustable. Operating pressure is adjustable to avoid injuring small calves.

Easily reversible for left or right side branding. RUPHCT hydraulic calf table

(550 lbs) .....\$ optional 110 volt power ..\$5,250.00 unit.....\$1,200.00

### PRIEFERT CALF TABLE

"Absolutely The Easiest Tilting Table on the Market!"

-Easy-tilt two-stage pivot system. -Handles calves up to 450 lbs. -Adjustable floor widths.

-Leg Hobble and Head, Chain included. -Reversible for right or left side branding. -Portability with optional carriage. -Lifetime replacement warranty on locks.

PFTCT (380 lbs.).....\$1,700.00

□Self-catching headgate allows the operator to work the alley,

pushing calves forward as they catch themselves in the headgate.

Heavy-duty design prevents calves from tearing up your investment.

□Adjustable floor width so you can squeeze and hold small calves as well as larger calves up to 450#.

☐Three drop down doors operate independently to give plenty of access to calf yet providing a firm hold.

□Vertical tailgate locks down and remains stationary as the table is tipped, eliminating the need for a separate gate to block off alley.

**FMLCT** 

### FOR-MOST **CALF TABLE**

(400 lbs.).....\$2,500.00

### FILSON CALF TABLE

Calf Table rolls left or right for easy access to both sides of animal. The circle concept keeps the alley blocked at all times. Equipped with stanchion type headgate with friction lock, adjustable leg bar, vertical drop panels on both sides and half or full drop door on bottom side. Calf Table is also portable.

### 12' ECONOMY PANEL WITH 6' WALK THROUGH

Priefert's Economy Panels and Gates are our most economically priced line and are proof that you don't have to sacrifice quality or durability to save money. Our Economy Walk Thru Gates are designed to be used with Priefert's Economy Panels. These uniquely designed panels feature a 6' wide "walk thru" gate and are ideal for a number of applications around the farm or ranch. This gate features a simple gravity latch. Chain connectors allow for quick, tight connections between panels and gates that help eliminate dangerous foot traps. The Architectural Grade Powder Coat Finish helps the product to resist rust, scratches, and fading to add years of life to your investment. 83 lbs. PFTRWT12

# LIVESTOCK EQUIPMENT

CPPAL12	12' adj. alley use with Double Alley\$5,750.00
CPPALD20	20' Double Alley\$9,500.00
CPPAL20	20' Straight Alley\$5,850.00
CPPATUB	1/2 circle 10' Tub\$7,300.00
CPPATUBD	1/2 circle 10' Tub for Double Alley\$7,300.00

Twin side by side alleyways make a large 5′ 6″ entrance enticing for cattle to enter and then transitions the cattle into a single alley then into the chute. A double alleyway system is the most efficient set up for loading out cattle or to keep flow of cattle consistent for the chute.

# BULLDOG PORTABLE CORRAL with HEADGATE

**CPPBDCP40** .....\$19,750.00

The Bulldog Portable Corrals are capable of holding up to 60 head of cattle. This corral offers a smaller, easy to fold out, and more affordable portable corral that can be used on its own or in tandem with a portable working system or corral to add more capacity and pen options. Headgate options make this corral more versatile than the competition. The Bulldog Portable Corral uses a hydraulic lift system to raise and lower the corral eliminating the need for you to lift panels, wind cables, or crank jacks to put the system in

# LINN PORTABLE GORRAL SYSTEM

One person can set up the Linn Portable Corral in about 10 minutes ready to contain 85-90 Cow/Calf Pairs without lifting a panel. The self contained system easily pulls down the highway at the speed limit and fits through any gate your pickup will. Works on extremely uneven terrain. Over 20 different corral configurations are possible. Wheels on each panel with electric over hydraulic jack eliminates lifting and saves time. Includes frame for sorting.

**PRSCHUTRB** 

**PRSPCAGEN** 

**PRSTUB** 

**PRSATG** 

**PRSALLEY** 

**PRSHCATCHT** 

**PRSCKIT** 

The xForce Head Control unit gives you a safe way to perform work on an animal's head. Using the same power unit as the xForce Squeeze, this cattle head restraint is great for ear tagging, in-tranasal vacci-nations and many other operations. xForce Head Control currently operates on a self-catch head gate. However, we do have plans to adapt it to a manual head gate in the near future.

**PRSXMHC** .....\$1,800.00

#### PEARSON XL CHUTE

Palpation doors built in on both sides of the chute. The palpation section squeezes with the rest of the chute resulting in no place for calves to turn around. The extra length is also convenient for longer animals.

**PRSCHLXL** left exit.....\$9,000.00 **PRSCHRXL** right exit.....\$9,000.00

#### PEARSON WHEEL KIT

Move your chute from one pasture to another with the Pearson Livestock Equipment Wheel Kit. Every new Pearson Livestock Equipment chute comes ready to accept the new wheel kit.

**PRSCWK** 

.....\$2,200.00

# FOR-MOST LIVESTOCK EQUIPMENT

#### **MODEL A-25 AUTOMATIC SELF-CATCHING HEADGATE**

Excellent headgate for one-man cattle handling, allowing the operator to be behind the animal while it catches itself.

Spring assisted gates automatically return to the catch position when the release control rod is reversed. The control rod allows you to release and prod the animal from behind for exit. A positive tie rod synchronizes the doors, eliminating troublesome chains or cables.

**FMLHCATCH** headgate tall (200 lbs.).....\$1,475.00

#### **SPECIFICATIONS:**

Height: Gate Opening 60", Overall 69" Width: Gate Opening 28", Bottom 18" Overall 39" less handle

Step Over: 2.5" . Closes to: 4" Weight: 200 lbs.

#### **MODEL 30 HEAVY DUTY MANUAL HEADGATE**

Ruggedly built to handle small calves or your largest bull. Available with optional neck bars and a manual head sweep to control the animal's head movement.

- ☐ Parallel opening doors and a low step-over help prevent a downed animal from choking.
- ☐ Gate closes down to 3" to hold small calves and latches up to 18" to hold your largest bulls.
- ☐ Has 6 more inches of gate clearance height and a beefed up control handle for working large bulls, taller exotics or bison.

☐ Specify left or right handle control when ordering.

# MSF MANUAL SQUEEZE CHUTE (THORSON)

The Manual Head Catch Stanchion provides maximum head restraint control that's safe for both the animal and operator. The Head Catch can easily be operated remotely out of livestock view for a better flow of animals into the chute. Featuring upper adjustments and a sliding drop pin for quick lower adjustment, the head catch handles animals of all ages. All manual control stanchions are non-choke with upper adjustable top head movement restrictors on each stanchion pipe. The stanchions feature a counter-set dual-ratchet lock mechanism with a spring loaded release, along with a safe overhead lever controlled with a pull rope that provides a micro head catch.

## SILENGER HYDRAULIG SQUEEZE GHUTES

SILENCER'S patented head and taildoors both open fully-top to bottom- for the industry's most advantageous cattle flow in and out of the chute. When the animal enters the chute, SILENCER'S full opening taildoor reduces hesitation. Then the combination of SILENCER'S full-opening headdoors and the pre-set pressure relief valve permits head doors to close only as far as needed for 350 lb. animals on up to 2500 lb. animals with little or no chute adjustment. SILENCER'S headdoor maintains equal pressure on the animal-top to bottom-minimizing animal stress and injury. It also employs the least amount of pressure on the animal of any hydraulic squeeze chute on the market. And SILENCER doors use less room to open and shut for greater operator safety....All this in contrast to the old-type scissor gate designs with the highest pressure located at the bottom of the gate increasing choking, shoulder damage and hesitation. Available with electric or gas motor. Many options available. HEAVY DUTY or COMMERCIAL

#### The SILENCER RANCH MODEL

Hydraulic squeeze chute with full-opening headgate & tailgate, polyethylene bearings, polyethylene contact points, fully sheeted headgate & tailgate, reinforced construction, 3 spool hydraulic valves, 3-4x2 cylinders, fitted hoses, 30 ft. of extension hose. SILENCER chutes are PRIMED before electrostatically painted. One year warranty.

# RIGE LAKE GROUP ANIMAL SCALES

"Take the Scale to your Cattle...... Animal Weighing at any Location"

## Portable Group Animal Scale w/o wheels

includes the following:

Deck, cage and integral base frame.

□Rubberized deck and pen sides.

□Cage includes 2 standard gates.

□Rugged all weather powder paint for years of use.

□Low deck height of only 6".

□Can be used on any firm surface up to 6% grade.

□Rubber T-belt on entry and exit.

□ Junction box for load cells.

 Approved legal-for-trade in Canada and the United States.

**NOR814** Group Scale, PORTABLE without wheels, cage measurements 7'5" x 12'9",

15,000# cap (weight 3500 lbs.).....\$23,500.00

**NOR821** Group Scale, PORTABLE without wheels, cage measurements 7'5" x 18'6",

20,000# cap (weight 4550 lbs.).....\$28,500.00

## **Mobile Group Animal Scale w/wheels**

includes the following:

Deck, cage and integral trailer package.

□Rubberized deck and pen sides.

□Cage includes 2 standard gates.

Rugged all weather powder paint for years of use.

□Low deck height of only 6".

□12 volt battery pack (recharged by tow vehicle).

Integral air pump to lift and lower trailer air bag suspension.

□Electric brakes. Can be used on any firm surface up to 6% grade. □Junction box for load cells.

☐Rubber T-belt on entry and exit.

□Approved legal-for-trade in Canada and the United States.

TRUOTHER.....\$2,920.00

#### **MULITPURPOSE LOAD BARS**

23" long, max capacity 4,400 lbs, for use with Alleyway Platform AP500. Easy to set up, portable, fully water, dirt and rodent resistant. Equipped with heavy duty TPR/PVC cables. Zinc plated, gold passivated for additional corrosion resistance. Fitted with rubber feet to provite extra grip and stock dispersal.

TRU805122.....\$1,390.00

#### **HD5T LOAD BARS**

43" long, max capacity 11,000 lbs (with two bars). Designed to be tough, reliable and easy to install under any manual or hydraulic squeeze chute. The simplicity of set up means you can easily install with no assistance needed.

**TRU833749**.....\$2,175.00

#### **MP800 LOAD BARS**

Designed for use under a variety of single animal portable applications, including alleyway platforms, cages or small animal crates. Versatile.
Can be temporarily installed and when used with the lightweight Tru-Test aluminium platform can be easily transported between different weighing sites. TOTAL CAPACITY 4,400 lb NOMINAL

TRU805123.....\$1,760.00

#### **S3 WEIGH SCALE INDICATOR**

Highly visible display. Simple user interface.
Only two clearly visible buttons, on/off and zero.
Other settings are easily accessible on the Data Link mobile app or Data Link PC software. SuperdampTM III technology. Bluetooth® Low Energy technology. Up to 20 hours of run time and only 6 hours to recharge.

**TRUS3**.....\$745.00

#### **EZIWEIGH7i**

LENGTH 23"

Capability to record information against Electronic ID (EID) or Visual tags, you can easily capture and analyse individual animal performance and history. Replacing guesswork with facts, the Ezi-Weigh7i displays live weight gain since the previous session, showing animal performance right there in the yard. Bluetooth wireless technology.

TRUEZW7.....\$1,625.00

#### XHD2 LOAD CELLS

Ideal for permanent installations under large cattle crushes/chutes where there is high usage. The system includes four 2,500 lb (1,136 kg) load cells with a total capacity of 10,000 lb (4,500 kg). Designed for harsh environments the system is protected to prevent moisture and corrosion damage. 26' cable length.

TRU826907.....\$2,200.00

#### **ALLEYWAY PLATFORM**

Single animal platform to weigh livestock faster and safer. Low profile design, no sharp edges, rubber mat for traction and noise reduction. Constructed of 1/4" aluminum. For alleyway and portable applications. Use with MP600 load bars. TRU821723......\$910.00

KEEP OUT OF REACH OF CHILDREN

# **MULTIMIN® 90**

An injectable aqueous supplemental source of zinc, manganese, selenium, and copper

CAUTION: FEDERAL LAW RESTRICTS THIS DRUG TO USE BY OR ON THE ORDER OF A LICENSED VETERINARIAN

#### ACTIVE CURSTANCES DED MI

Zinc	60 ma/mL
Manganese.	10 ma/ml
Selenium	
Copper	25 ( )

#### OTHER SUBSTANCES:

ocresol 0.1% w/v (as preservative).

#### DOSAGE RECOMMENDATIONS:

CALVES: Up to 1 year	. 1 mL/per 100 lbs. bodyweight
CATTLE: From 1-2 years	. 1 mL/per 150 lbs. bodyweight
CATTLE: Over 2 years	1 mL/per 200 lbs. bodýweight

ium and copper are toxic if administered in excess.

Always follow recommended label dose. Do not overdose

It is recommended that accurate body weight is determined prior to treatment.

Do not use concurrently with other injectable selenium and copper products.

Do not use concurrently with selenium or copper boluses

Do not use in emaciated cattle with a BCS of 1 in dairy or 1-3 in beef.

Consult your veterinarian

Slight local reaction may occur for about 30 seconds after injection. A slight swelling may be observed at injection site for a few days after administration. Use standard aseptic procedures during administration of injections to reduce the risk of injection site abscesses or lesions.

#### WITHDRAWAL PERIOD:

Meat 14 days. Milk zero withdrawal

#### **DIRECTIONS:**

This product is only for use in cattle.

MULTIMIN® 90 is to be given subcutaneously (under the skin) ONLY.

It is recommended to administer the product in accordance with Beef Quality Assurance (BQA) guidelines. Minimum distance between injection sites for the MULTIMIN® 90product and other injection sites should be at

Inject under the loose skin of the middle of the side of the neck. Max volume per injection site is 7 ml.

of side of neck
